PROFILE

A results-driven professional specializing in web development and digital optimization. I have a track record of building high-performing websites and implementing SEO strategies that have increased organic traffic by 20%. My expertise in link building and on-page optimization is complemented by my skills in PHP, Laravel, Vue.js, and WordPress. I also have growing capabilities in data analysis and machine learning, which I use to create data-driven solutions. I combine technical excellence with strong communication to deliver impactful results.

EMPLOYMENT HISTORY

Graduate Trainee | Suwani Plant Hire

Harare, Zimbabwe (May 2025 – Present)

- WordPress Development:** Developing and maintaining websites using WordPress, leading to a 30% reduction in page load times by optimizing images and leveraging caching.
